

**The Program
Euro Champions
ECP**

The next step in the progression of player development is our Euro Champions Program, an extension of our popular champions and Euro Touch programs.

Players who are **U8 eligible** who have competed and excelled in our champions league program, or have been invited by the coaching staff will be selected to participate in our Euro Champions winter training program.

Players in the ECP program will be coached and directed by our professional coaches, Alex Sahlen and Aaran Lines. ECP will provide a structured and competitive environment, giving advanced youth players not only the newest technical and physical training, but the game experience that is critical to youth players development.

Youth players will blossom while training under professionals that know what it takes to get to the highest level, as well as training at a quality facility with top players within their age group.
